

# CERROSTONE™

## HARD PLASTER FOR CERAMIC GREENWARE DEMOULDING SUPPORT

### WHY CHOOSE SAINT-GOBAIN FORMULA PLASTER?

Cerrostone™ is a patented technology that provides optimised water absorption, mechanical resistance and improved lifetime for ceramic greenware demoulding support.

Easy fabrication process

Absorbs water from the ceramic greenware

No deformation of the demoulding support

Increases lifetime up to 10 times versus standard plaster

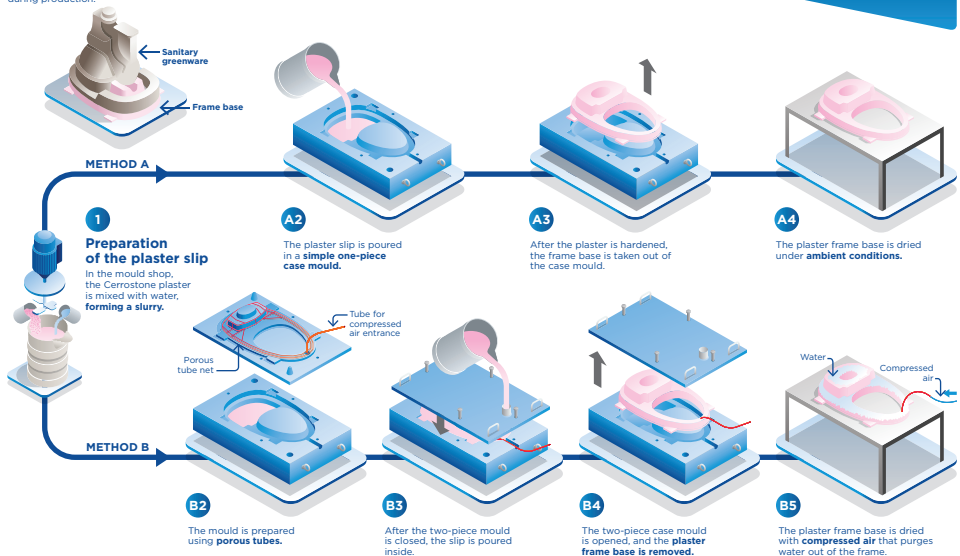

### FOCUS ON

#### HOW TO PRODUCE A FRAME BASE WITH CERROSTONE™

The frame base is an essential support used to transport ceramic greenware during production.

#### DID YOU KNOW?

- The use of compressed air in the frame base allows it to dry faster and increases its lifetime!

## ADVANTAGES OF USING CERROSTONE™ FOR CERAMIC GREENWARE FRAME BASE

MATERIAL	MECHANICAL RESISTANCE	WATER ABSORPTION	LIFETIME
