

Saint-Gobain Formula, Newark, U.K., Quality Policy Statement

Saint-Gobain Formula, Newark is a manufacturer and supplier of industrial plasters and gypsum minerals for a diverse range of end applications including ceramics, dental, decorative artwork, giftware, food additives and animal feed in addition to base materials for use in proprietary formulations. Our (interested Parties) customers are a combination of intergroup Saint-Gobain businesses, direct accounts and merchant distributors located primarily in the U.K. and Europe but also globally.

It is our policy to endeavour to consistently fulfil our customer's expectations and requirements being supported by the Management team at Saint-Gobain Formula, Newark who are committed to providing both product and service to our customers that are of the highest quality and ensuring adequate resource is available for its achievement.

We are committed to using a risk based approach to maintain and improve the effectiveness of our Quality Management System which is certified to BS EN ISO 9001:2008 and our food and feed safety management system which is based on the principles of HACCP.

A culture of continual improvement is in place and quality objectives are set in line with the company strategic plan at least annually. These are reviewed periodically, together with this quality policy statement and any amendments are communicated to employees.
